How to turn off Auto Complete for Microsoft Internet Explorer

Select "Internet Options" from the "Tools" menu of Internet Explorer's Menu Bar:

Select the "Content" tab at the top of the "Internet Options" dialog.

Select the "Auto Complete" button on the "Content" tab.

Make sure “forms” checkbox is not checked on the “Auto Complete Settings” dialog.

Make sure “User names and passwords on forms” checkbox is not checked and click on the “Clear Passwords” button before selecting the “Ok” button on the “AutoComplete Settings” dialog. Select the “OK” button the “Internet Options” dialog.

Click "OK" to complete the change.
